

ATMOSPHERIC WATER

The healthiest, most sustainable source of drinking water on the planet!

Mayee is the no. provider of atmospheric water in the UAE. We have AWGs in multiply sizes and designs with the options to lease or purchase.

We act as your own personal cloud, converting moisture in the air to pure, fresh drinking water. We are environmentally conscious and health-driven, that's why our water is plastic and chemical-free, designed to benefit both you and the environment.

The Benefits

Health

- Chemical, toxin & microplastic free
- Perfectly balanced PH 7.3 and rich in essential minerals for optimum health

Environment

- Decrease landfill pollution by removing the need for plastic bottles
- Protect oceans and marine life by eliminating the use of single plastic
- Help to reduce carbon footprint by stopping unnecessary transportation of water bottles

Please use the below contact details for any questions or interest in our service.

We look forward to hearing from you.

How It Works?

Our clever technology uses not only one or two but eight layers of protection to produce the healthiest, purest drinking water.

STEP 1

Air is drawn in

STEP 2

HEPA grade air filtration

STEP 3

Air condensed into water

STEP 4

Ozone sterilisation

STEP 5

Carbon filtration

STEP 6

Mineralisation

STEP 7

UV light treatment

STEP 8

Pure mineral water is dispensed
